Description

Stainless steel security accessory designed for compatibility with models 10403206 and 10403207. Its robust construction allows its use in industrial or commercial environments where secure and durable closure is required. The compact design facilitates installation without the need for large spaces.

Technical specifications

- Height: 0.20 cm
- Width: 2.00 cm
- Depth: 4.00 cm
- Weight: 0.010 kg

Its stainless steel finish offers a clean and professional appearance, in addition to resisting corrosion in demanding environments. It is suitable for doors, locks, and security systems where minimal maintenance is prioritized.

Installation is simple and straightforward, meeting the standards of compatible locks. It is recommended for applications requiring high durability and protection against adverse conditions.
