Description

Swing hook M-8 designed for installation in false ceilings, gypsum board, and hollow concrete. Its gravity mechanism allows fast and secure fixation without the need for additional tools, making it ideal for industrial and light construction applications. The compact design facilitates its use in restricted spaces, offering an efficient and stable solution.

Technical Specifications

- Dimensions: 3.00 x 3.00 x 17.00 cm
- Weight: 0.074 kg
- Width: 3 cm

Installation is done using a screw or threaded rod, allowing its use in various environments. It is especially useful for mounting lightweight panels and accessories on false ceilings or gypsum walls, ensuring precise placement without additional tools.

The gravity mechanism ensures safe and stable fixation, ideal for applications requiring light but reliable support. Its robust structure allows extended use in industrial or commercial environments, maintaining effectiveness over time.

Specifications

High	3.00
EAN	8445187484557
Measures	3,00 x 3,00 x 17,00
Weight (kg)	0,074
Depth	17.00
