Description

M-4 pivot hook for false ceilings, plasterboard and hollow concrete walls. Designed for safe installation of lightweight elements with a gravity-operated mechanism that allows fast assembly without additional tools. Its compact structure makes it suitable for use in confined spaces.

Technical Specifications

- Dimensions: 2.00 x 2.00 x 13.00 cm
- Weight: 0.015 kg

This hook provides a reliable solution for hanging panels, lights or lightweight accessories in construction and decoration environments. Its design ensures secure fastening even under demanding conditions, guaranteeing durability in commercial and industrial applications.

Installation is simple and quick, suitable for both temporary and permanent use. Recommended for false ceilings and plasterboard or hollow concrete structures where light and efficient support is required.

Specifications
