Description

The set of 5 raw keys for security cylinder is made of brass, a durable and resistant material that guarantees high quality in both interior and exterior use. These keys are specifically designed for backup copies and replacement of standard security cylinders, offering a practical and efficient solution without the need for additional tools.

Technical specifications

- Dimensions: 2.00 x 2.00 x 2.00 cm
- Weight: 0.030 kg
- Material: Brass

The compact and simple design allows for easy handling in secure closure applications. They are ideal for installations where a quick and accurate copy of the original cylinder is required, facilitating access without technical complications.

The ease of installation makes this product suitable even for non-specialized users. Its compatibility with standard locks allows immediate use in various environments, both residential and commercial, ensuring a reliable and economical solution.
