Description

The wine aerator is designed to enhance the tasting experience by oxygenating the wine during service, using the physical principle of the Bernoulli effect that allows automatic air introduction while serving. This accessory fits directly onto the neck of the bottle and facilitates a better expression of aromas and flavors from the first glass. Made from silicone and transparent ABS, it offers durability and ease of cleaning.

Technical Specifications

- Dimensions: 4.2 x 16 cm
- Height: 3.00 cm
- Width: 8.00 cm
- Depth: 23.00 cm
- Weight: 0.060 kg
- Material: Silicone and transparent ABS

Its compact design makes it suitable for professional use in bars, restaurants or wineries, as well as for wine enthusiasts at home looking for an optimized service experience. It facilitates decanting without the need to manually handle the wine, maintaining its quality and freshness.

It is recommended to wash it with warm water after each use to preserve its transparency and functionality. Avoid using in dishwashers helps extend the material's lifespan. It is easy to install and can be used directly on any standard wine bottle.

Specifications

High	4.2
EAN	8445187486582
Long	4.2 X 16 CM
Material	Silicona
Measures	4.2 x 16
Weight (kg)	0.060
Depth	23.00
