Description

LED lamp with motion sensor and ambient light detection, designed for automatic lighting in dark spaces. Activates its operation when brightness is less than or equal to 20 lux and remains on for 20 seconds after detecting movement. Its low energy consumption and warm color temperature of 2700 K provide efficient and comfortable illumination.

Technical Specifications

- Power: 0.17 W
- Color Temperature: 2700 K
- Protection: IP20
- Dimensions: 55 x 48 x 59 mm
- Light Sensor Threshold: ≤ 20 lux
- Sensor Duration: 20 seconds

It is suitable for hallways, bedrooms and bathrooms where automatic lighting is required without manual intervention. Its compact design allows discreet installation in spaces with limited room.

Installation is simple and does not require additional configuration. The sensor automatically detects darkness to turn on the lamp, turning off when ambient light returns. It facilitates practical and efficient use in environments where energy savings are sought.

Specifications

EAN	8445187466041
Measures	55 x 48 x 59
Power (W)	0.17
