Description

Double-button flush valve with threaded base, model Tambre, designed for standard ceramic toilets. Combines hydraulic efficiency with ease of installation and maintenance. Its dual-flush system allows selection between 3 liters or 6 liters, optimizing water consumption with each use. The housing is made from high-strength polypropylene, offering anti-lime properties and durability against continuous wear.

Technical Specifications

- Height: 9.00 cm
- Width: 21.00 cm
- Depth: 30.00 cm
- Diameter: Ø40 mm
- Material: Polypropylene (PP)
- Weight: 0.502 kg

Its design includes an overflow tube anti-flood feature that enhances safety in case of failure. Rubber gaskets without silicone ensure a reliable and durable seal. It is compatible with most ceramic models, allowing simple adjustment of flush volume according to needs.

The threaded base facilitates installation and replacement without additional tools, ideal for new installations or replacements. Its compact structure allows easy maintenance and clean integration in any modern bathroom.

Specifications

High	9.00
