Description

Double threaded socket polypropylene elbow with Ø32-40 mm diameter, designed to change direction in plumbing systems. Its construction from durable material allows safe and leak-proof connections both in domestic and professional environments.

Technical Specifications

- Diameter: Ø32-40 mm
- Material: Polypropylene (PP)
- Dimensions: 5.00 cm high x 11.00 cm wide x 13.00 cm deep
- Weight: 0.060 kg

Its double threaded entry allows reliable connection both in inlet and outlet sections. It includes a conical reducer joint of Ø32 mm that improves compatibility with pipes of smaller diameter.

This fitting is useful for connections in sinks, washbasins and other sanitary systems where it's necessary to change the drain direction in confined spaces. Its installation is simple and suitable for both new constructions and repairs.

Specifications

High	5.00
------	------

Width	11.00
Diameter	32 mm
EAN	8445187488500
Material	Polypropylene
Measures	Ø32-40 mm
Weight (kg)	0,060
Depth	13.00
