Description

The manual pressure sprayer with an 8-liter HDPE tank is a versatile and efficient tool for garden care, orchards and fruit trees. Its manual pumping system allows constant pressure generation between 0.15-0.23 MPa or 0.2-0.3 MPa depending on the model, ensuring uniform liquid flow. Made from high-density polyethylene (HDPE), it is resistant to impacts, solar radiation and chemicals such as fertilizers or pesticides.

Technical Specifications

- Capacity: 8 liters
- Dimensions: 18.00 x 54.00 cm
- Weight: 1.350 kg
- Material: High-density polyethylene (HDPE)
- Operating pressure: 0.15-0.23 MPa or 0.2-0.3 MPa depending on model
- Automatic safety valve

Its ergonomic and functional design makes it ideal for both domestic and professional applications. It is especially useful in the precise application of liquid fertilizers or pesticides, avoiding waste and ensuring uniform product distribution.

It is recommended to release residual pressure before storing and to rinse the tank and nozzle after each use. Keep the sprayer in a protected place from sunlight and extreme temperatures to extend its service life.

Specifications

High	18.00
Width	18.00
EAN	8445187484809
Long	18,00
Measures	18,00 x 54,00
Weight (kg)	1.350
Depth	54.00
