Description

The Kevin High Electric Convector 2000W white/tan is an efficient heating device designed to provide instant heat through the principle of convection. Made from durable materials such as metal and polycarbonate, it offers high durability and safety for daily use. With a nominal power of 2000 watts, it features thermal regulation that allows selection between three levels: 750W, 1250W and 2000W, adapting to the heating needs of each space.

Technical Specifications

- nominal power: 2000 watts
- Temperature regulation: three levels (750W, 1250W, 2000W)
- Optional turbo function for fast heating
- Overheating protection
- Dimensions: 38 x 57 x 17 cm
- Material: metal and polycarbonate
- Includes two stable feet and handle for transport

Its modern and compact design makes it an ideal solution for medium to large-sized rooms. Thanks to its convection system, it distributes warm air uniformly, improving thermal comfort in the environment. Additionally, its easy installation and portability make it practical for use in homes or offices.

The convector can be easily placed anywhere in the room thanks to its adjustable feet and lightweight structure. Its safety system includes overheating protection, ensuring safe operation throughout the

usage period.

Specifications

High	38
Width	57
Colour	White
EAN	8435684371115
Manufacturer	FABRILAMP
Long	38 x 57 x 17 cm
Material	Metal y policarbonato
Measures	38 x 57 x 17
Weight (kg)	2,54
