Reinforced Super Clamp 140-148 wolfpack

Brand: WOLFPACK LINEA PROFESIONAL

Reference: AFT 13012325

Reinforced super-type clamp for pipes with a diameter of 140-148 mm, featuring double welding and high-tensile material. Load capacity up to 200 kg, operating temperature from -20 °C to +80 °C.

Description

Reinforced super-type clamp designed for pipes with a diameter between 140 and 148 mm. Robust construction combining stainless steel and reinforced polymer, ensuring resistance in demanding industrial environments. Its double welding and modular structure allow easy installation without the need for special tools.

Technical Specifications

- Width: 140-148 mm
- Materials: Stainless Steel and Reinforced Polymer
- Load Capacity: Up to 200 kg
- Operating Temperature: -20 °C to +80 °C

This clamp offers a secure and durable fastening in pipe systems, metal structures, and industrial supports. Its resistance to wear and ability to maintain system integrity under extreme conditions make it a reliable choice.

Installation is quick and simple, facilitating its implementation in projects requiring precise and long-lasting adjustments. Recommended for applications demanding high mechanical strength and operational stability.

Specifications

Width	140-148 mm
Diameter	140-148 mm
Size of the mouth	140-148
EAN	8435231915519
Material	Acero inoxidable y polímero reforzado
