Replacement Filter Cover for Automatic Solar Welding Screen

Brand: WOLFPACK LINEA PROFESIONAL

Reference: AFT 15040061

Válido para:
Pantalla soldadura automatica solar
Cód.: 15040053

Replacement filter cover for automatic solar welding screen. Protects the work area during the welding process on photovoltaic panels, with thermal resistance up to 300 °C and compatibility with air cooling systems.

Description

The replacement filter cover for automatic solar welding screen is an essential component designed to protect the work area during welding processes in photovoltaic systems. This accessory is specifically developed for automatic welding screens, providing optimal protection against particles and radiation during the manufacturing process.

Technical specifications

- Material: UV-resistant polycarbonate
- Dimensions: 120 x 80 mm (approximate)
- Optical transmittance: >90%
- Thermal resistance: up to 150°C

Its design allows for easy installation and maintenance, facilitating visibility of the work area without compromising safety. It is

It is recommended for use in industrial environments where protection against solar radiation and particles is required during assembly or repair processes of solar panels. Its compatibility with air cooling systems makes it suitable for demanding working conditions.

Specifications

EAN	8435450455322
Long	120 x 80 mm
Material	Polycarbonato resistente UV
Measures	12 x 8
Weight (kg)	150
