Description

Air extractor designed for efficient ventilation in confined spaces, with a 100 mm diameter and 11 watts of power. This device specializes in removing odors, smoke, and particles from the air, thanks to its high-quality motor and low noise level. Its durable housing ensures longevity in both domestic and professional environments.

Technical Specifications

- Power: 11 watts
- Diameter: Ø 100 mm
- Connection: standard for ceiling or wall installation

Its compact and modern design allows easy integration in kitchens, bathrooms, and offices. It is especially useful for improving air quality in enclosed spaces without requiring major structural modifications.

Installation is simple thanks to the included accessories, enabling quick setup without specialized tools. Compatible with existing ventilation systems, it facilitates easy incorporation into already equipped environments.

Specifications

Diameter	100 mm
Size of the mouth	100
EAN	8435450484520
Nominal voltage (V)	11
