Galvanized Cable 12 mm Spool 100 Meters

Brand: WOLFPACK LINEA PROFESIONAL

Reference: AFT 01120235

100 mts.

Ø 12 mm.

6 x 19 + 1

Galvanized cable with a diameter of 12 mm, spool of 100 meters, built with hot-dip galvanized steel for corrosion resistance. Industrial and commercial applications with high mechanical tension.

Description

Galvanized cable with a diameter of 12 mm, manufactured with steel coated through the hot-dip galvanizing process to ensure high corrosion resistance. Specifically designed for industrial and commercial applications that require durability and electrical safety in demanding environments.

Technical Features

- Diameter: 12 mm
- Length per spool: 100 meters
- Material: Galvanized Steel

Its robust construction allows use under adverse weather conditions, offering a long service life. It is widely applied in low and medium voltage electrical installations, especially in corrosion-prone areas.

The cable is easily installed with standard connectors or conventional mounting systems. It is recommended for use in aggressive industrial environments or coastal zones where mechanical and chemical resistance is fundamental to the performance of the electrical system.

Specifications

Diameter	12 mm
Size of the mouth	≥ 12
EAN	8435450480294

Length	100 metros
Weight (kg)	0
