Description

The diamond disc Evolution is a professional cutting tool designed to deliver superior performance when handling ceramic, porcelain and glazed tile materials. Its advanced technology enables fast, precise and efficient cutting. This disc stands out for its fast cutting capability and precision on hard surfaces, making it especially useful for cutting tasks on tiles, slabs and similar materials.

Technical Specifications

- Diameter: 115 mm
- Segment thickness: 15 mm
- Compatible materials: porcelain, ceramic, glazed tiles

Its installation is simple and straightforward, compatible with most conventional cutting equipment. It is recommended to use it whenever a clean and efficient cut is required without compromising the quality of the material being worked on.

This disc offers an excellent balance between durability and performance, making it suitable for intensive use in industrial environments. Its optimized design helps minimize heat generated during cutting, extending its service life and improving the final finish quality.

Specifications

Width	115 mm
Diameter	115 mm
EAN	8435450482632
Material	porcelánicos
Depth	15 mm
