Description

Face protector with harness and grid designed to provide visual protection in industrial environments. It combines a sturdy structure with an adjustable fastening system that ensures comfort and stability during use. Its design allows necessary ventilation while blocking particles and moving objects.

Technical Features

- Material: Reinforced polypropylene with fiberglass fiber
- Approximate dimensions: 180 x 120 mm
- Weight: 150 grams
- Protection class: IP67

It offers high impact resistance and is suitable for applications requiring continuous facial protection. Its construction facilitates cleaning and maintenance, contributing to its durability.

Its installation is simple thanks to the adjustable elastic band that adapts to different head sizes. It is recommended to use it in combination with other personal protective equipment for optimal safety during work or sports activities.

Specifications

High	18
------	----

Class	IP67
EAN	8435450481383
Long	180 x 120 mm
Material	Polipropileno reforzado con fibra de vidrio
Measures	18 x 12
Weight (kg)	150 gramos
Protection	IP67 - uso externo
