Description

Aluminum anodized straight ladder with three steps, designed for safe and lightweight access in indoor or outdoor spaces. Its sturdy construction allows a recommended maximum load capacity of 150 kg, with a step width of 30 cm and an approximate total height of 120 cm. Made from lightweight yet robust material, it offers durability and ease of transport.

Technical specifications

- Material: Anodized aluminum
- Number of steps: 3
- Approximate total height: 120 cm
- Step width: 30 cm
- Recommended maximum load: 150 kg

Its functional and modern design makes it easy to use in domestic, industrial or maintenance environments. The anti-slip surface improves safety when accessing roofs, platforms or elevated areas.

Installation is simple and does not require special tools. It can be placed directly on the floor or mounted to a wall according to the needs of the environment.

Specifications

High	120 cm
