Description

Impermeable work pants with high visibility class 2, designed for adverse weather conditions. Manufactured with 100% waterproof materials that provide effective protection against rain and humid environments. Complies with European regulations EN 343 - Class 4,1,X and EN ISO 20471 - Class 2, guaranteeing visual safety in demanding work environments.

Technical Features

- Materials: 100% waterproof
- Certifications: EN 343 - Class 4,1,X / EN ISO 20471 - Class 2

Its design incorporates reflective elements that improve visibility in low-light conditions. It is suitable for use in construction sites, maintenance and outdoor work where protection against water and visual safety are required.

It is recommended to wash at 40°C and avoid extremely hot environments to maintain its thermal and protective properties. Its functional design allows easy adaptation to different types of work in outdoor environments.
