Description

Portable LED lamp with motion sensor and brightness adjustment, designed for indoor and outdoor use. Uses high-efficiency LED technology that provides powerful and durable lighting, with autonomy adapted to the needs of the environment. The integration of a motion sensor allows the light to turn on only when presence is detected up to 2 meters away.

Technical specifications

- Power: 1 W
- Lumens: 100 lm
- Color temperature: CCT (Correlated Color Temperature)
- Battery: Rechargeable
- Sensor: Motion up to 2 meters
- Connection: Wireless

Can be mounted on the wall or used as a table lamp, offering flexibility in its application. Its compact and modern design facilitates integration into various spaces. The sensor functionality contributes to energy savings by activating only when necessary.

The lamp allows adjusting the color tone and light intensity through intuitive controls, adapting thus to different lighting needs in domestic or office environments.

Specifications

Colour	CCT (Color Corregido de Temperatura)
EAN	8435197469941
Efficacy (lm/W)	100
Lumens (lm)	100
