Description

Adjustable white sand-colored ceiling plenum with a 200x200 mm base, designed for directional lighting in residential and commercial spaces. It incorporates four adjustable GU10-35 bulbs that allow the light angle to be adjusted according to environmental needs. Installation is simple thanks to the included integrated system, compatible with standard GU10-35 bulbs.

Technical Specifications

- Base: 200 x 200 mm
- Bulbs: 4x GU10-35 (not included)
- Finish: White sand

Its elegant and functional design adapts to various environments, providing uniform and customizable lighting. It is especially useful in work areas, living rooms, or hallways where precise light direction is required.

The plenum mounts directly to the ceiling using the included mounting system, without the need for specialized tools. The flexibility of the system allows each bulb to be adjusted individually to optimize light distribution according to specific applications.

Specifications
