Description

Brass connection fitting with hex threading and threaded nuts, designed for industrial and commercial applications in hydraulic and pneumatic systems. Its robust construction allows safe and efficient installation in demanding environments.

Technical Specifications

- Material: Brass
- Size: 1"
- Thread: Hexagonal
- Connection: Threaded Nuts

Its corrosion resistance and durability make it suitable for water, steam and other fluid installations in industrial or commercial environments. It is compatible with standard pipe systems.

It facilitates secure connections between pipe components and valves, ensuring a reliable supply without interruptions. Recommended for use in sanitary, hydraulic and industrial installations where a durable and reliable solution is required.

Specifications

EAN	8435012446010
