Brand: SCOA

Reference: SCO 26814

Reusable FFP3 respiratory mask with HEPA filtration and exhalation valve. Professional protection against fine particles and aerosols. Includes two units per pack.

[View product online](#)

Description

Reusable FFP3 respiratory mask with exhalation valve designed to provide superior protection against fine particles and aerosols. Its advanced technology offers effective sealing and optimal ventilation, suitable for high-risk industrial environments.

Technical Features

- Filtration Class: FFP3
- Usage Type: Reusable
- Protection Against Particles
- Includes 2 units per pack

Its ergonomic design allows for comfortable fit during prolonged use, maintaining maximum safety in environments with fine materials or hazardous substances. Especially recommended for tasks requiring respiratory protection higher than FFP3.

Installation is simple: it fits the face and seal is checked before use. It is recommended to periodically review the equipment's condition to ensure continuous effectiveness.

Specifications

Class	FFP3
