Description

The JMA LIN-15D Type A key is a switching device designed for industrial and commercial applications, offering reliable operation in demanding environments. Its construction is made with tempered steel, ensuring resistance and durability against adverse conditions. This key fits perfectly into automation systems, electrical equipment and other uses where precise and safe control is required.

Technical Features

- Model: LIN-15D
- Design Type: Type A
- Material: Tempered Steel
- Length: 80 mm
- Thickness: 3 mm

Its ergonomic design facilitates installation and handling, being compatible with common connectivity standards. It is ideal for environments where a durable and high-performance solution is needed.

The key can be used in residential or commercial applications, offering a safe and efficient alternative for electrical system control. Its easy installation allows quick deployment without the need for specialized tools, provided local safety regulations are followed during setup.

Specifications

High	80 mm
Width	3 mm
EAN	8422513000100
Length	80 mm
Material	Acero templado
Type of installation	Tipo A
