Description

The JMA B-Type keys model IS-3D are switching devices designed for industrial and commercial applications, featuring advanced contact technology that ensures safe operation in demanding environments. Made from brass with a protective coating, they offer corrosion resistance and compatibility with standard mounting systems.

Technical specifications

- Material: Brass with protective coating
- Connections: 2 standard connection points
- Protection class: IP65
- Operating temperature range: -20 °C to +70 °C

The modular design allows easy integration into existing electrical installations, facilitating maintenance and upgrades. They are suitable for applications requiring durable and reliable switching.

Installation is simple thanks to its standard configuration. Periodic inspection is recommended to ensure optimal performance under normal operating conditions.

Specifications

Class	IP65

EAN	8422513007314
Material	Latón con recubrimiento protector
Protection	IP65
