JMA Type C Key Model YA-3D

Brand: SCOA

Reference: SCO 29596

C-type access keys for the YA-3D system. Designed for compatibility with standard security modules, with mechanical resistance specifications of 1500 N and a minimum lifespan of 1000 operating cycles.

Description

C-type access keys designed for the YA-3D system, fully compatible with standard security modules. These keys offer up to 1500 N of mechanical resistance and a minimum operational life of 1000 cycles, ensuring durability in demanding industrial environments.

Technical Features

- Material: Stainless Steel
- Connection Type: C-Type
- Dimensions: 3D (length, width, height)

The stainless steel construction ensures optimal performance under adverse environmental conditions. The C-type configuration facilitates integration into mechanical fastening and connection systems where structural stability is required.

Recommended for industrial applications that demand precision in connectivity, as well as environments with high resistance requirements. Installation is performed using standard procedures without the need for special tools, facilitating system assembly and maintenance.

Specifications

Colour	Stainless steel
--------	-----------------

Material	Acero inoxidable
