JMA Type B Key Model FAC-10D

Brand: SCOA

Reference: SCO 29654

JMA Type B Keys model FAC-10D for standard security systems. Designed with corrosion-resistant materials, they offer dimensional compatibility according to technical standards and resistance in demanding industrial environments.

Description

JMA Type B Key Model FAC-10D designed for industrial and commercial applications with high safety and durability standards. Manufactured with corrosion-resistant materials, it offers reliable performance in demanding environments. Its construction allows simple and quick installation, making it suitable for pipe systems and mechanical connections where sealing and resistance are required.

Technical Features

- Model: FAC-10D
- Type: B

Its design facilitates maintenance and ensures compatibility with industrial standards. Recommended for installations that require durable and efficient solutions in critical environments.

The key installs easily in Type B closure systems, allowing a secure and reliable connection. It is especially useful in applications where mechanical integrity is fundamental to system operation.

Specifications

Type of installation	B
