Description

Long hex impact socket key 1/2 inch (17 mm) designed for demanding industrial applications. Its construction from resistant material ensures durability and performance in intensive work environments. This tool facilitates precise assembly and disassembly of 1/2 inch bolts and components, especially in confined spaces where technical accuracy is required.

Technical Specifications

- Size: 1/2 inch (17 mm)
- Head Type: Hexagonal
- Length: Long
- Material: Impact Resistant
- Application: Wheels and fastening systems

Its design allows for precise fit in environments with limited space, improving the efficiency of the assembly process. It is especially useful for industrial mechanics and technicians who require robust and accurate tools.

The key can be used both in maintenance and industrial assembly, offering a long service life even under intensive usage conditions. Its resistant finish ensures optimal performance over many years of continuous use.
