Description

Handheld flashlight with telescopic body, designed for outdoor use and manual spraying applications. Features a high-luminosity LED lamp and a manual opening system that allows water pressure adjustment, facilitating flow control during use. Its telescopic structure enables compact transportation and storage, ideal for limited spaces.

Technical Specifications

- Total length: 2.5 meters
- Telescopic design
- Manual pressure system

This device provides uniform liquid distribution, facilitating efficient watering in gardens, patios, and green areas. Its durable construction ensures prolonged use under normal operating conditions.

The wand connects easily to standard hoses without the need for additional tools, allowing quick installation and disconnection. It is suitable for both domestic and professional use in environments with access to potable water.

Specifications

High	2,5 metros

EAN	8435012458334
Long	2,5 metros
Shape	telescópica
