Hexagonal Concrete Drill 10 x 150 mm

Brand: SCOA

Reference: SCO 76113

Hexagonal percussion drill for reinforced concrete, diameter 10 mm, useful length 150 mm. Designed for drilling in concrete, brick and stone with high resistance and durability.

Description

Perforation drill specifically designed to drill in concrete, brick and stone with maximum efficiency. Its construction in alloyed steel with special coating ensures superior resistance and extended durability in both professional and domestic work. The hexagonal design improves grip when inserted into the drill, facilitating its use in demanding applications.

Technical specifications

- Diameter: 10 mm
- Total length: 150 mm
- Drilling length: 200 mm
- Material: Alloyed steel with special coating
- Shape: Hexagonal

It is suitable for making holes in reinforced concrete structures, hollow brick and natural stone. The drill offers optimal performance under intensive working conditions thanks to its mechanical resistance.

Installation is simple: just insert the drill into the drill machine and start drilling. It is recommended to use a drill with a minimum power of 500 W to achieve the best results and greater efficiency during the process.

Specifications

Diameter	10 mm
EAN	4059952650463
Format	Hexagonal
Long	150 mm
Length	150 mm
Material	Acero aleado con revestimiento especial
Measures	1 x 15
