### Description

Ponsa elastic tie of 2 meters, with flat design and integrated hook, manufactured using 50% elastic material for secure and durable fastening. Its robust construction allows its use in industrial, commercial and storage applications where a quick and effective tying solution is needed without damaging the objects.

#### Technical specifications

- Length: 2 meters
- Width: flat
- Material: 50% elastic
- Includes hook for fastening
- Content: blister with 2 units

Its use is versatile in environments that require temporary or permanent tying. It is suitable for securing goods, cables, equipment or other objects where a secure fastening without damaging the main product is required.

Installation is simple: pass the strap through the object to be tied and hook the end onto the hook. No additional tools are required, making it easy to handle in daily work or storage situations.
