Description

Standard security Torx bit accessory with 1/4" short guide, model T27x25. Designed for industrial applications requiring mechanical precision and durability during assembly or adjustment on lathes and machine tools. Its robust construction ensures longevity in demanding environments.

Technical Features

- Type: Security Torx Bit
- Size: 1/4" Short
- Code: T27x25

Provides a secure and precise connection, avoiding slippage during operation thanks to its specific Torx head design and internal guide. Especially useful in processes where damage to screws or tools must be avoided.

Installation is straightforward and simple, fitting perfectly into the corresponding socket of the accessory. Recommended for applications requiring high mechanical precision and durability during adjustment or assembly of industrial components.
