Description

Professional anodized aluminum stool with two steps and adjustable height, designed for use in industrial and laboratory environments. Its lightweight and durable construction allows easy handling and transport, while offering a maximum load capacity of 150 kg. The material used ensures durability and ease of cleaning.

Technical specifications

- Material: Anodized aluminum
- Number of steps: 2
- Adjustable height: Yes
- Recommended maximum load: 150 kg

Its ergonomic design and stable structure make it a reliable option for work areas where comfort and durability are required. It is especially useful in environments that demand a fixed seat with adjustability according to user needs.

Installation is quick and simple, without the need for special tools. It can be placed directly on flat surfaces and is ready to use immediately after unpacking.

Specifications
