Description

Three-step auxiliary stool made of steel and aluminum, designed for small spaces with maximum functionality. Its lightweight structure combines strength and lightness, allowing easy transport and storage. The adjustable height between 45 and 60 cm makes it suitable for various applications in domestic or professional environments.

Technical Specifications

- Material: Steel and aluminum
- Number of steps: 3
- Adjustable height between 45 and 60 cm
- Load capacity up to 120 kg

Its ergonomic design facilitates its use in work areas or dining rooms, offering comfort without taking up much space. It is especially useful as an auxiliary seat in environments with compact furniture.

Installation is simple thanks to its guaranteed stability and ease of placement. It adapts easily to any flat surface, ideal for small spaces or those with size limitations.
