Description

Compact steel and aluminum stool with Slimstep Mix design, made from durable materials that ensure longevity in indoor environments. Its lightweight and minimalist structure allows easy movement and storage without compromising stability. Particularly useful for work areas or meetings where auxiliary access to elevated surfaces is needed.

Technical Features

- Material: Steel and aluminum
- Number of steps: 4
- Design: Slimstep Mix

Its robust construction offers resistance for frequent use in both workplace and home environments, facilitating access to elevated surfaces with comfort. Its compact design makes it suitable for small spaces without losing functionality.

Installation is immediate and simple, as no tools or complex assembly are required. It can be placed directly on flat surfaces, allowing quick use from the moment the product arrives.
