Description

Modular steel stool with three steps, designed for high access in industrial and commercial environments. Its robust construction in high-quality steel ensures durability and stability for continuous use.

Technical Features

- Material: Steel
- Number of Steps: 3

This stool offers ergonomic comfort without compromising structural strength, making it suitable for work areas that require stable and durable support. Its modern design facilitates integration into various environments.

It installs easily on flat and stable surfaces, without the need for tools or complex assembly. It is a practical solution for offices, warehouses, or high-traffic industrial areas.
