Description

Steel stool with plastic steps, designed for use in industrial or commercial spaces. Its structural steel construction ensures durability and resistance in demanding environments. The minimalist design facilitates its installation in small areas without compromising functionality.

Technical Specifications

- Materials: structural steel with resistant plastic steps
- Number of steps: 2
- Approximate height: 45 cm
- Recommended load capacity: 150 kg

Its anti-slip surface and easy-to-clean design make it suitable for work areas, warehouses or common spaces where comfort and durability are required. The combination of materials offers a practical and durable solution.

Installation is quick and simple without the need for special tools, allowing safe assembly on flat and stable surfaces.
