Thread Cutting Nut Kit M6 to M24 with Thread Finishing Tool

Brand: Kukko

Reference: TUR K-55-B-C

Thread cutting nut kit M6 to M24 with thread finishing tool, includes cutting and precise measurement tools. Designed for mechanical assembly industrial applications, it offers compatibility with common thread standards and allows fine adjustments in thread finish using the integrated file.

Description

Specialized thread cutting nut kit M6 to M24 with thread finishing tool, designed for precise thread cutting and finishing in various industrial materials. Combines cutters and nuts of different sizes, along with an integrated file that allows fine adjustments and high-quality finish. Its robust construction ensures durability in demanding environments.

Technical Features

- Measurements: M6 to M24
- Includes cutters and nuts for different calibers
- Integrated file for thread finishing

Its use is mainly oriented toward mechanical assemblies where precision and safety are fundamental. It is especially useful in preventive or corrective maintenance of industrial machinery, offering an efficient solution for working with threads.

Installation is straightforward thanks to its compatibility with common thread standards. It is recommended for applications requiring precise finishes and secure connections without the need for additional tools.

Specifications

Diameter	M6 a M24
EAN	4021176021527
Manufacturer	Kukko
Long	10-36 mm
Measures	M6 a M24
