SDS-MAX Crossmax Drill Bit 30x550 mm

Brand: Guillet

Reference: TUR 6951

SDS-MAX Crossmax drill bit with a diameter of 30 mm and a length of 550 mm, designed for drilling in concrete and stone. It incorporates advanced cutting technology for greater durability and efficiency in industrial work.

Description

The SDS-MAX Crossmax drill bit with a diameter of 30 mm and a length of 550 mm is designed for drilling in reinforced concrete, stone, and resistant materials. This tool uses SDS-MAX technology that ensures a secure and efficient connection with the hammer drill, optimizing energy transfer during the drilling process. Its robust construction allows optimal performance in industrial and professional applications.

Technical Specifications

- Diameter: 30 mm
- Total Length: 550 mm
- Connection Type: SDS-MAX

This drill bit is ideal for civil works, structural repairs, and industrial jobs where high resistance and durability are required. Its design allows precise and efficient drilling in difficult materials without compromising operator safety.

Installation is simple thanks to its standard compatibility with SDS-MAX tools, making it easy to use in demanding work environments. It is recommended to always use it together with the appropriate equipment to ensure safe and efficient operation during tasks.

Specifications

High	3
Diameter	30 mm
EAN	3660354069510
Manufacturer	Guillet
Long	550 mm
Material	Steel
Measures	3 x 55
