SDS-MAX Crossmax Drill Bit 35x550 mm

Brand: Guillet

Reference: TUR 1646

SDS-MAX Crossmax drill bit with a diameter of 35 mm and a length of 550 mm, designed for drilling in concrete and stone. It incorporates optimized cutting technology for greater durability and efficiency in industrial applications.

Description

The SDS-MAX Crossmax drill bit with a diameter of 35 mm and a length of 550 mm is designed for demanding industrial and construction applications. It uses advanced technology that optimizes cutting and improves durability, allowing efficient performance in hard materials such as concrete, stone, and metals. Its SDS-MAX connection system provides a secure and robust fixation on percussive machines, ensuring stability during the drilling process.

Technical Specifications

- Diameter: 35 mm
- Total Length: 550 mm
- Connection System: SDS-MAX

This drill bit is ideal for drilling in reinforced concrete, natural stone, and other resistant materials. Its design allows efficient operation and a long service life under intensive working conditions. It is especially recommended for projects requiring high resistance and precision in industrial environments.

Installation is simple on any percussive machine compatible with the SDS-MAX system. It is recommended to verify equipment compatibility before use to ensure optimal and safe performance during operations.

Specifications

EAN	3660354016460
Manufacturer	Guillet
Long	550 mm
Material	Steel
Measures	3.5 x 55
Weight (kg)	0.55
