SDS-MAX Crossmax Drill Bit 35x920 mm

Brand: Guillet

Reference: TUR 6519

SDS-MAX Crossmax drill bit with a diameter of 35 mm and a length of 920 mm, designed for drilling in concrete and stone. It incorporates advanced cutting technology for greater efficiency in industrial work.

Description

The SDS-MAX Crossmax drill bit with a diameter of 35 mm and a length of 920 mm is designed for industrial and professional applications in reinforced concrete and resistant materials. Thanks to its SDS-MAX technology, it offers efficient energy transfer and optimal performance under demanding conditions. Its construction using high-strength materials ensures durability in intensive work environments.

Technical Specifications

- Diameter: 35 mm
- Total Length: 920 mm

This drill bit allows for precise and efficient drilling, making it ideal for construction work, structural repairs, and industrial installations. Its design facilitates handling during prolonged use.

Installation is simple thanks to compatibility with standard percussion systems. It is recommended to use it together with SDS-MAX drills to achieve optimal results in deep and accurate drilling, especially in industrial environments where high resistance and performance are required.

Specifications

EAN	3660354065192
-----	---------------

Manufacturer	Guillet
Long	920 mm
Material	Steel
Measures	3.5 x 92
