Description

The submersible LED flashlight NEMO 150lm IP68 delivers powerful and reliable illumination for use in aquatic environments. Designed with high-efficiency LED technology, it provides 150 lumens of bright light, perfect for low-visibility conditions underwater. Its durable construction and IP68 certification guarantee complete protection against water and solid particles, making it suitable for diving, underwater fishing, and aquatic exploration.

Technical Features

- Brightness: 150 lumens
- Protection Level: IP68

Its compact design makes it easy to handle in marine environments, while its ease of operation and energy efficiency ensure prolonged performance. It is an essential tool for professionals and enthusiasts who require reliable underwater lighting.

The flashlight can be safely used in extreme aquatic conditions without risk of damage. Its installation is simple, as it does not require additional components or complex configurations for basic operation.

Specifications
