Description

Mechanical connection accessory designed for demanding industrial applications. The combined threaded male fitting ULTIMATECUT M3 provides a secure and precise joint, compatible with M3 screws. Its construction in stainless steel ensures corrosion resistance and high durability in harsh environments.

Technical Specifications

- Size: M3
- Thread Type: Combined
- Material: Stainless Steel

Its design allows for quick and easy installation with standard tools, facilitating its use in piping systems or metal structures. It is especially useful in environments where mechanical strength and long-term stability are required.

It is recommended for industrial and commercial applications that demand reliable connections, without the need for specialized equipment for assembly.

Specifications

EAN	4007140397423

Manufacturer	Ruko
Material	Acero inoxidable
Measures	M3
