Combined Threaded Male Adapter ULTIMATECUT M4

Brand: Ruko

Reference: TUR 270615

Combined threaded male adapter ULTIMATECUT M4 with metric thread M4, robust design for industrial applications, compatibility with standard tools and precise fastening in automated systems.

View product online

Description

Mechanical connection accessory designed for industrial applications requiring precise and secure fastenings. The combined threaded male adapter ULTIMATECUT M4 features a metric M4 thread with a robust design, compatible with standard tools for quick and efficient installation.

Technical Specifications

- Metric: M4
- Thread Type: Combined

Its sturdy construction makes it suitable for demanding environments, offering durability under normal operating conditions. It is especially useful in automation, industrial machinery and electronic assemblies where precise fitting is required.

It facilitates integration into existing systems thanks to its compatibility with standard threads. Installation is simple and fast, allowing a reliable connection without the need for additional special tools.
