Description

Mechanical fastening accessory designed for industrial and commercial applications. The combined thread male ULTIMATECUT M8 provides a secure and durable connection, compatible with standard M8 thread specifications. Its robust construction ensures durability in demanding environments.

Technical Features

- Thread: M8
- Material: Stainless steel or brass according to specifications

Its design facilitates integration into assembly systems, providing stability and resistance without the need for additional tools. It is suitable for installations requiring precise and durable connections.

The standard thread allows easy installation and assembly in various industrial or construction environments, optimizing the mounting process with maximum efficiency.

Specifications

Diameter	M8
EAN	4007140397232
Manufacturer	Ruko
Intensity	M8
Material	Acero inoxidable o latón según especificaciones
