Combined Threaded Male Fitting ULTIMATECUT M10

Brand: Ruko

Reference: TUR 270619

Combined threaded male fitting ULTIMATECUT M10, robust design for industrial applications. Nominal diameter M10, standard metric thread, built with stainless steel 304 with high corrosion resistance and high temperature performance.

Description

Combined threaded connection accessory ULTIMATECUT M10, designed for demanding industrial applications. Its construction in stainless steel 304 ensures resistance to high pressure and temperatures, as well as excellent durability in corrosive environments. This component allows the safe joining of pipes or mechanical parts using metric thread M10.

Technical Specifications

- Materials: Stainless Steel 304
- Nominal Diameter: M10
- Thread: Metric (M10)
- Connection Type: Combined Threaded

Its robust design facilitates installation in mechanical systems where a tight and durable seal is required. It is widely used in industrial piping, processing equipment, and applications requiring high reliability.

The connection is easily made thanks to the standard M10 metric thread, allowing compatibility with similar components. It is recommended to verify specifications before installation to ensure proper fit and avoid pressure or leak issues.

Specifications

Width	M10
Diameter	10
EAN	4007140397249
Manufacturer	Ruko
Material	Acero inoxidable 304
