HSS Quick Change Drill Ø 16-30 mm

Brand: MPS

Reference: TUR 5605-1

HSS quick change drill for metal drilling, diameter 16-30 mm, with fastening system and carbon steel tip. Ideal for precision operations in mechanical workshops.

Description

Quick-change HSS drill with diameter from 16 to 30 mm, designed for drilling in a wide range of metallic and non-metallic materials. Its construction in special HSS (High Speed Steel) ensures high resistance and durability during intensive operations. The quick fastening system allows easy tip replacement without the need for additional tools, optimizing production time in industrial environments.

Technical Features

- Diameter: 16-30 mm
- Material: HSS (High Speed Steel)
- Quick change system

This drill offers superior performance in precision applications, making it ideal for operations in mechanical workshops and factories where efficiency and longevity are required. Its ergonomic design facilitates handling and allows quick tip replacement, improving operator productivity.

It is recommended for use on conventional machine tools or industrial equipment for precise drilling. The drill is easy to install and adapts to various production environments where tool durability and consistent performance are valued.

Specifications

Diameter	16
EAN	4028655085605
Manufacturer	MPS
Material	Acero HSS (High Speed Steel)
Measures	16-30 mm
