Onlex Titanium Horizontal Recessed Frame 2 Elements ABS

Brand: ALFA

Reference: ALFA 29029

The Onlex Titanio Horizontal Embedded Frame integrates two lighting elements into vertical structures by means of a robust ABS finish. Its optimized configuration facilitates efficient distribution of components within the recessable system, ensuring operational stability and safety in industrial or commercial facilities that require clean and durable integration.

Description

The Empotrar Horizontal Onlex Titanio Frame is a robust lighting system designed to integrate two elements into vertical structures, offering an aesthetic and functional solution through its robust finish. Its optimized configuration allows efficient distribution of components within the recessable frame.

Technical characteristics

- High durability ABS material finish
- Specific composition for 2 lighting elements
- Horizontally oriented configuration for maximum integration
- Designed exclusively for embedded installation on vertical surfaces
- Robust structure ensuring stability and operational security

This system ensures a clean and safe integration, facilitating the maintenance and renovation of internal components without compromising the structural integrity of the framework. Its versatility makes it suitable for various industrial and commercial environments where a uniform and durable finish is required in lighting applications.

The installation is simple and quick, allowing the elements to be fixed precisely on the target surface by

means of its robust structure. It is only necessary to follow the basic assembly instructions to ensure the correct and stable placement of the recessable system, ensuring precise and lasting technical integration in any professional environment.

Specifications

Colour	Titanio
EAN	8425160290290
Material	ABS
# Elements	2 elementos
Weight (kg)	0.0362
