Description

The Embedded Frame Onex Horizontal Titanium 4 Elements is an organizational solution designed to protect and manage electrical components on distribution boards. Made with a durable ABS finish, this horizontal frame ensures a robust and durable installation in industrial and commercial environments.

Technical characteristics

- High quality ABS finish
- Horizontal configuration for space optimization
- Includes 4 integrated modular elements
- Designed to fit into standard boards

This product offers efficient organization of the components, facilitating maintenance and improving the aesthetics of the electrical board. Its structure allows orderly management of cables and devices, ensuring safe and reliable operation.

The installation is simple and quick, requiring only basic tools to be fixed on the board. By following the manufacturer's instructions, a perfect integration is achieved without additional complications, adapting to various electrical projects.

Specifications

Colour	Titanio
EAN	8425160290313
Material	ABS
# Elements	4 elementos
Weight (kg)	0.0763
