Description

The S-EMPOTRAR ONLEX VERTICAL TITANIUM MARK is a high-strength recessing solution designed for solid and durable bindings. Its titanium frame technology guarantees structural stability, while vertical configuration optimizes space and ergonomics during installation.

Technical characteristics

- Frame material: Titanium
- External finish: ABS
- Composition: 2 modular elements
- Settings: Vertical model
- Type of installation: Embedded

This system offers a robust solution for projects that demand mechanical reliability and a professional finish. The combination of materials ensures that the product resists demanding conditions without compromising its structural integrity over time.

The installation is simple and quick, allowing efficient integration into any working environment. Its modular design facilitates assembly and adaptation to different project-specific needs.

Specifications

Colour	Titanio
EAN	8425160290320
Material	Titanio
# Elements	2 elementos
Weight (kg)	0.0375
