Solar Sensor LED Projector IP65 50W CCT

Brand: ALFA

Reference: ALFA 29322

50W stand-alone solar LED projector with adjustable monocrystalline photovoltaic panel and 10800mAh rechargeable battery. It offers 5000 lumens with CCT adjustable light temperature between 3000K and 6500K by remote control. Built in black aluminum with IP65 protection grade, it guarantees reliable outdoor lighting for facades or gardens without traditional electrical wiring.

Description

The 50W IP65 Solar Sensor LED Projector is an autonomous outdoor lighting system that combines monocrystalline photovoltaic panels with advanced LED technology to offer a versatile solution without the need for traditional electrical wiring.

Technical characteristics

- Power: 50W
- Rechargeable battery: 10800mAh
- Luminosity: 5000 lumens
- Light temperature: CST (6500K/4000K/3000K)
- Autonomy: 2-12 hours
- Charging time: 8-10 hours
- Protection: IP65
- Material: Black aluminium
- Photovoltaic panel: Adjustable monocrystalline (322x179mm)
- Projector dimensions: 290x173mm

This equipment provides adaptable and powerful lighting, allowing to highlight architectural elements or create cozy environments in open spaces during the night. Its multifunction remote control allows

precise control of the intensity and mode of light without moving.

The installation is simple thanks to its support for wall fixing and its degree of protection that guarantees safe operation under heavy rain or dust. The orientable solar panel maximizes energy capture, ensuring efficient recharge even on cloudy days.

Specifications

High	32.2
Width	17.9
Opening angle	120º
Colour	Black
Diameter	120º
EAN	8425160293222
Lumens (lm)	5000
Remote control	Yes
Material	Aluminio
Measures	32.2 x 17.9
Weight (kg)	2.104
Protection	IP65
Adjustable	Yes
Nominal voltage (V)	3.2
